DRONE MANAGEMENT GROUP

Course Date: May 5, 2022
Time: 9:00am to 5:00pm
Location: HC Training Center
7925 E.160th St. Noblesville, IN

Public Safety Search and Rescue Course

During this course, SAR PICs will gain a basic understanding of missing person behavior which aids in the probability of detection. Students will take a deep dive into the sensors used for SAR and gain advanced skills in interpreting the sensor data. Participants of this course will incorporate best practices to enhance the outcomes of the mission, including multiagency and ground crew coordination, airspace management, and the use of a video image observer. This course prepares students for the tasks and procedures needed to effectively manage SAR operations from the initial response through the expansion phases of the search. During this course, multiple search methods and search patterns will be studied and applied to numerous hands-on training flights and SAR mission scenarios. While exercising these airborne scenarios, search PICs will develop the experience and skills needed to identify or equally important rule-out targets of interest. After completing this course, SAR PICs will have gained the advanced knowledge and skills required to execute a SAR mission effectively.

Cost: $432.00
Night Add-On: $500.00
